

Student Name: Michael Chipman

School: PHHS

Class: 11PH2

Lesson: Physics Revision  
Moving About 1

Date: 23/8/17

Time: 8.55 am

COMMENTS

- Summary of lesson at beginning - good!
- Integration of smartboard into lesson.  
→ use that ICT!
- Going through topic content. suggest putting full dot points into your slides so that you stay on track.
- Walking around the class assisting → good work, keep it up! Esp. with extra assistance for int'l students → differentiation.
- Discussing questions on smartboard → good use of tech. Get kids to do it.
- Taking suggestions from kids → good way of engaging them and making lesson student centred.

Strengths

- Good rapport with students
- Good choice of practice questions

To improve

- slow down and relax
- Pick <sup>fewer</sup> specific Qs
- Work out answers at home to prepare.
