

Student Name: Michael Chipman

School: PHAS

Class: 11PH2

Lesson: World communication
Revision

Date: 1/a/17

Time: 8-55 am.

COMMENTS

- Paying more attention to ~~right~~ left hand side of class. Good effort.

- Use of interactives + laptops:
Integration of ICT into lesson. Simulations worked! Students were engaged.

⇒ Suggest picking 1-2 really good simulations per lesson to avoid overload. will work really well for content lessons (not revision)

- Remember to keep checking on kids who are goofing off, or ask questions relevant to syllabus dot point to relate demos to learning outcomes.

→ Checked on kids on the left. Good work!

- working with students individually to work out concepts; keep it up.
